alone prompt me to send you this voluntary testimonial to the great value of "Carter's Spanish Mixture," for that almost incurable disease, scrofula. Without being disposed or deeming it necessary to go into the particulars of the case, I can say that the automishing results that have been produced by the use of that medicine on a member of my own family, and under my own observation and superintentence, after the skill of the best physicians had been exhausted and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful maindy. I do not mean to say that it is adapted to all constitutions, or that it will afford the same ralles in all cases; for, of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it, in any and every case of scrofule, with persons for whom I felt an interest, or ever whom I could exercise influence or control. Respectfully yours.
